# the Pitt Rivers Museum mouse mask

To make your mask:

The mask will be nice and strong if you trace or photocopy this template onto card. It will be fine on paper, just not as robust.

You will need:

scissors  
colouring pencils or crayons  
stapler  
elastic  
bits to decorate & for whiskers

- 1 cut out the mask shape along the black lines
- 2 cut out the eye holes (all 4 of them!)
- 3 slide the left side of the mask over the right hand side, until the two arrows line up

now you can see how the mask makes a mouse's face

- 4 colour in and decorate the face
- 5 staple the mask together, add some whiskers and some elastic to keep it on
