To make your mask:

The mask will be nice and strong if you trace or photocopy this template onto card. It will be fine on paper, just not as robust.

You will need:
- scissors
- colouring pencils or crayons
- stapler
- elastic
- bits to decorate & for whiskers

1. cut out the mask shape along the black lines
2. cut out the eye holes (all 4 of them!)
3. slide the left side of the mask over the right hand side, until the two arrows line up
   now you can see how the mask makes a mouse's face
4. colour in and decorate the face
5. staple the mask together, add some whiskers and some elastic to keep it on
